LOUNGE + SOFT SEATING

Form. Function. Intelligent design.

Discover Formetiq®

Formetiq's vision is to shape the future of work through furniture design that is both intelligent and enduring.

We believe workplaces should do more than simply function, they should feel intuitive and cohesive, with future needs in mind. That belief drives our approach to creating furniture solutions that are not only fit for today, but adaptable for what comes next.

At the heart of Formetiq is a commitment to seamless design. Every product is conceived as part of a wider system, allowing desking, storage, and ancillary elements to connect effortlessly. The result is a unified design language where proportion, scale, finish, and

detail are carefully aligned. This consistency creates environments that feel considered and resolved, rather than assembled.

Flexibility is built into every layer. Our ranges are designed to adapt across different spaces, teams, and ways of working, with customisable finishes and configurations that allow each environment to express its own identity without losing cohesion. It is a balance of structure and freedom, where design integrity remains intact while individual needs are met.

Everything we design is guided by three core beliefs. It must look beautiful, bringing a refined and confident aesthetic to every product. It must work intuitively, supporting the people who use it with clarity and ease. And it must be realised through the most resource-effective approach, where intelligent design minimises waste, works well as a system and maximises longevity.

This is how Formetiq delivers furniture design solutions that are trusted for the next generation of work.

Hewn

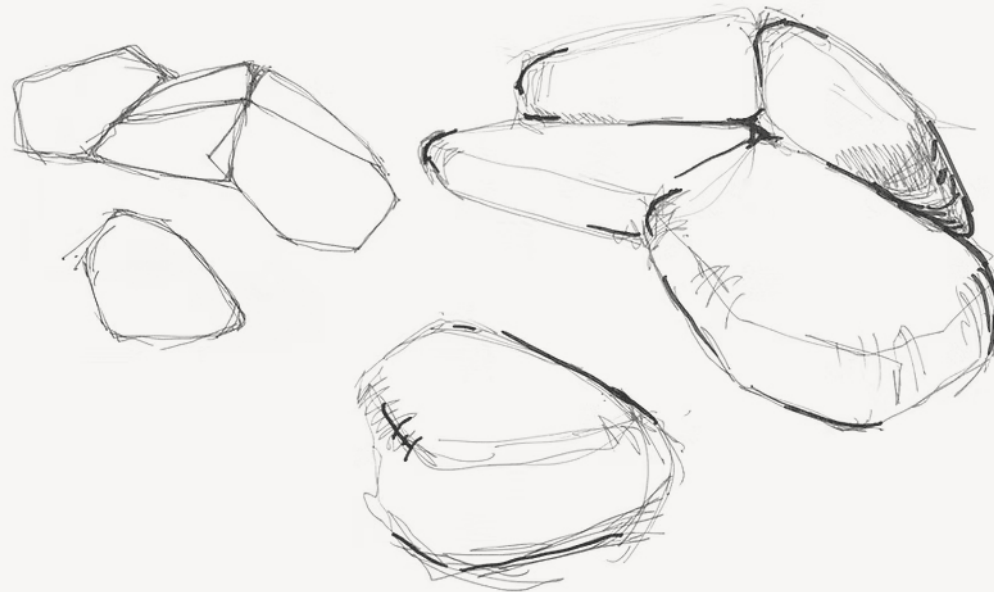

Sofas + Poufs

Hewn is an original soft seating collection that works beautifully in both public and private spaces. The modular design provides the ability to adapt Hewn to any space or requirement.

The collection offers 3 sizes of pouf and 3 sizes of sofa with each piece a unique shape. Using these individual elements, Hewn can easily be expanded to suit any size space.

The Hewn design is original, with distinct references to natural forms in rock or stone. Hewn's designers created distinguishing features that imitate natural rounded forms, like pebbles and boulders.

'The Hewn design is original with distinct references to natural forms in rock or stone.'

Tide

Modular Soft Seating

Tide is a flexible modular sofa range designed to bring form, comfort, and adaptability to any commercial interior.

With a collection of modular forms available, every piece connects effortlessly, giving interior designers freedom to shape seating of any scale. Tide can be configured in endless layouts – linear runs, clusters, islands, or serpentine flows.

Tide blends clean geometry with soft, inviting comfort. Its low height and generous proportions make it a versatile choice across workplace breakout areas, hospitality venues, and public spaces; where clarity of design and ease of use matter most.

'Tide's long, low profile and subtle rise of the backrests mimics the soft cresting of water.'
